DRUK

*Shimmering in the Dreamtime**"Some worlds don't wait to be discovered. DRUK has been calling for centuries."*

ASIAN ALICE IN WONDERLAND · MEETS AVATAR · IN THE LAND OF OZ

THE STORY

A middle aged man, his twin sister and his young daughter are pulled into DRUK — a shimmering mythological dreamworld of forgotten magic and "Crazy Wisdom" characters — and must complete a sacred hero's journey. DRUK's appearance on planet Earth has triggered a change in human DNA, and the invisible part of the universe is beginning to reveal itself. DRUK, *Shimmering in the Dreamtime* is the fantastic tale of a group of people sharing a vulnerable ascent to the heights of their own, and humanity's evolutionary edge in this mythological romp into the mystic!

THE VISION

We are taking back the planet and building a mythology for the next hundred years — a "New Myth for Our Common Inheritance®" — a fully realized universe of film, music, and fiction rooted in Eastern and Western myth, synchronicity, and the language of the dreaming mind. The world has had stories about magic — DRUK is the story of what the magic actually is, where the other worlds actually come from and why cosmic connection is not poetic metaphor but structural reality — wrapped in the most irresistible, visually spectacular, emotionally transporting adventure the human imagination can hold — outrageously cool, simply divine!
